- CN503 – Neon Chartreuse
- CN253 – Black

Duncan® Discovery Brushes:

- BR529 – No. 4 Round
- BR530 – No. 8 Round

Other Supplies:

- Potter's Sponge
- Sea Sponge
- Pencil with Eraser

© & ™ Lucasfilm

PROJECT INSTRUCTIONS:

Before you begin, wipe a damp sponge over entire bisque to remove dust and contaminants.

1. Paint 1 thick coat of Black all over the outside of the mug until no white is showing.
2. When the color has lost its shine, take a slightly damp sponge and gently wipe the color off the pottery. You want to wipe lightly, removing the color from just the raised parts of the texture. This will leave the color in just the cracks, giving it an antiqued look. For best results, continually rinse your sponge in your water bowl while you wipe, as needed, and squeeze out the water well so it doesn't drip onto your pottery.
3. With a sea sponge, sponge all over the outside of the mug while alternating between Neon Chartreuse, Neon Coral, and Bright Purple.
4. Paint 2 coats of Bright Jade on the inside of the mug.
5. Paint 2 coats of Bright Jade on the helmet details on the front of the mug.
6. Paint 3 coats of Black on the handle.
7. Starting with a wet brush, mix it into some Black, and splatter all over the inside and outside of the mug.
8. Using the back of the pencil like a stamp, make Black dots around the top rim of the mug.
9. Clear glaze then stilt and fire to cone 06.
